2. Content and Organization: a. Content is balanced, relevant and supports the purpose b. The ideas are arranged logically and support the purpose						
3. Tone and Sentence structure: a. Consistent professional appropriate for research paper b. Smooth flow of sentences from one to another, well phrased.						
4. Feel and Choice of words: a. The article ties the reader and maintains the interest of the reader b. Appropriate word choice used.						
5. Grammar, Spelling, Punctuation, Capitalization: Free or almost free of errors.						
6. Length: Appropriate number of pages for the assignment						
7. References: a. Professionally legitimate sources to support the claims b. Peer-reviewed journals/ approved sources						
8. Usage of References: Recent edition of reference format used accurately and consistently in the manuscript and on the "Reference" section.						
Total Score						

There are 8 components: Each component is evaluated for 5 marks. In case there are (a)(b) sub-components each will be evaluated to 2.5, such that every component is evaluated for 5 marks.

The weights are Poor (1), Marginally Acceptable (2), Acceptable (3), Very Good (4), Excellent (5).

Enter the total marks in each row.

E.g. Component 1. Acceptable becomes 3 as there is no sub-component.

Component 2a. Excellent is 5 becomes 2.5; 2b. Very Good is 4 becomes 2. Hence, Component 2, which has two components, a and b, will be added such as $2.5+2 = 4.5$ Marks

Total Score is out of 40 Marks.

I/we have evaluated the research paper and awarded _____ marks out of 40 marks.
